Your plan has an embedded Deductible, which means the plan pays for Covered Services in these two scenarios — whichever comes first:		
*When an individual family member reaches his or her individual Deductible. At this point, only that person is considered to have met the Deductible; OR		
*When a combination of family members' expenses reaches the family Deductible. At this point, all covered family members are considered to have met the Deductible.		
Deductible applies to all Covered Services you receive during the Benefit Period, unless the service is specifically excluded.

Your plan has an embedded Out-of-Pocket Limit, which means the Out-of-Pocket Limit is satisfied in one of two ways — whichever comes first:		
*When an individual within a family reaches his or her individual Out-of-Pocket Limit. At this point, only that person will have Covered Services paid at 100% for the remainder of the Benefit Period; OR		
*When a combination of family members' expenses reaches the family Out-of-Pocket Limit. At this point, all covered family members are considered to have met the Out-of-Pocket Limit and Covered Services will be paid at 100% for the remainder of the Benefit Period.
