- Check the box

Reddy, THANK YOU for taking an active role in your health. While this report is no substitute for a comprehensive medical evaluation from your personal doctor, inside you'll find results that will give you a good idea of your current health, as well as:

- Tips that can serve as a guide for improving or maintaining your overall wellness
- A quick, easy-to-understand Medical Summary Report to share with your doctor
- Highlighted areas where you should focus on improvement
- Space to jot down notes or questions about your personal health goals

Because your privacy is important, all information in your MyGuide to Health is confidential, and your employer will not have access to individual results.

Again, thanks for taking this important first step toward a healthier you.
