Dedication

The Rev. Norman Carlisle Young wishes to dedicate this volume in loving Memory of his wife Janet. We thank both Norman and Janet for their love of the Lord and their dedication to The United Methodist Church as expressed through the annual conference and their willingness to generate yet another helpful and unique resource for us. We also thank those who gave generously in financial support of this project, especially those that gave in Memory of Janet Grace Allaman Young (deceased February 7, 2012). Those donations helped fund a portion of this project.

Preface (Vision)
As I have worked with Norman C. Young on these Historical Records Volumes, I have come to appreciate his vision for the future. His love for the annual conference is self-evident in the number of hours he and his wife Janet have devoted to these projects. His passion for our history is apparent in the content and the detail encompassed in these volumes. His vision for future needs of historians and decision makers for this data is very clear. The vision was much broader than I could have imagined. This vision is borne out from over a half century of experience in the annual conference and his wisdom. This vision informed certain editorial decisions about the scope and content of this project. Norman’s vision for this project includes two companion volumes. The first companion volume, Church Records (2003) included all Churches with their list of Pastors appointed. That volume has been continually updated and is currently available on the conference web site Church Records 1825-2018. A second volume, Pastoral Records has reversed the sort and includes all Pastors with their list of appointments to local churches. Norman’s vision for this second volume 1784-2018 now includes 1,635 pages (in 10 pt type). An abridgement (without the Biographical data) with about 85% of this volume is available on the conference website. We decided to produce this volume now for two reasons. This volume puts into print a permanent record of clergy for future reference and allows for public review of the contemporary Pastoral Records for corrections for the next comprehensive volumes referencing Pastoral Records from 1784 to the present. Please forward all comments and corrections to the conference.secretary@wpaumc.org.

Purpose (Mission)
This volume is intended to be a workbook for future historians and not meant to be primary source. We attempted here to list reference points from the annual conference Journal (our primary sources) as a place to start future exploration. Information often conflicted between chapters in a single volume because each chapter was frequently a separate report from different sources with differing purposes. For example, the Appointment List in each Journal shows who was assigned to a particular church in the future Appointment year; while the Statistical Tables show who was actually serving that church by the end of the previous Calendar year. Add to that layer, each subsequent volume had information that often conflicted with the previous Journal because the information was updated. Sometimes the newer information was a correction and at other times it was mistaken. No attempt has been made here to highlight the differences. Attempts to reconcile the data were often our best guess as to which source was more accurate at any given time. The editors frequently relied on memory to make their best guess for this volume. For most purposes, these editorial gloss-overs make the data comparable from record to record and volume to volume. However, for legal questions or genealogical accuracy, the users of this document are encouraged to examine the actual Journals during the relevant years. Most are available by appointment through archives@wpaumc.org at the Annual Conference Archives next to the Old Salem United Methodist Church in Greenville. Specific periodical runs are also available at several satellite libraries around the conference and around the country.

Historical Context
One of our predecessor Denominations/Conferences, the Methodist Episcopal/Erie Conference had a tradition of periodically printing a compilation of “all” Ministerial Records published eight times in 1866, 1870, 1898, 1911, 1927, 1936, 1957 and 1961. This document functioned to fulfill the 2016 Discipline mandate ¶606.6 to “keep a complete service record of ordained and diaconal ministry personnel in the annual conference. Service records shall include but not be limited to biographical information supplied by the individual, a list of appointments, and a record of annual conference actions with regard to the conference relationships.” Herbert E. Boyd, Conference Secretary took seriously this mandate and was personally responsible for the editions published in 1957, 1961, 1969 and 1988. His widow Roberta O. Boyd also contributed to the 1999 edition edited by Norman C. Young. On the Methodist Episcopal/Pittsburgh Conference side, the historical volumes were infrequent but generally more comprehensive. An early example was Grafton T. Reynolds’s Manual of the Pittsburgh Conference 1928 which contained the appointment records of the ministers through 1927. In 1969 the merged Methodist Conferences/Pittsburgh and Erie produced Methodism in Western Pennsylvania 1784-1968. The project brought together the contributions of W. Guy Smeltzer (including the Pittsburgh Conference Methodist Episcopal predecessor), Norman C. Young (including the Methodist Protestant predecessor), and Herbert E. Boyd (including the Erie Conference Methodist Episcopal predecessor). In 1991 Raymond M. Bell made an additional compilation of the EUB Western Pennsylvania History 1799-1971. This 2018 volume has sought to continue the United Methodist pattern (1988, 1999, 2010, 2018) to compile all Pastoral Records of The United Methodist Church in Western Pennsylvania. It has approximately seven times as many Pastoral Records (8,423 records) as we print annually in Chapter Eleven (approximately a thousand records) of the conference Official Journal and Yearbook because the annual publication only includes those currently living and relating to the Western PA Conference. This compilation attempts to pull together all records from the previous publications. In this edition, we have included all clergy serving in Western Pennsylvania since 1784.

Acknowledgement
I would also thank Naomi Horner for proof reading and updating the entire document. Most of her suggestions to be included in this edition, they provide valuable data for improving the next printed volume of the Pastoral Records.

Your servant in Christ,
John R. Wilson, Conference Secretary

MINISTERIAL RECORDS

THE WESTERN PENNSYLVANIA CONFERENCE AND PREDECESSORS 1825 - 1968

Contained in the single alphabetical roll of this book are the Ministerial Records of all the Ministers who have served in one of the Western Pennsylvania Conferences from the time of the creation of the original Pittsburgh Conference in 1825 to 1968.

The following NOTES will help in the understanding of these records:

1. MEMOIRS SEARCHED. The memoirs of all Deceased Members published in the annual Journals of each of the Conferences have been read and pertinent data has been included in these records. This is the source of the dates for the life span and for the given names of many of the ministers.

2. CONFERENCE JOURNALS MAJOR PRIMARY SOURCE. The Appointment Lists and the Disciplinary Questions published annually in each of the Conferences are the sources for this information. To make confirmation of this data a researcher will need to go to a file of the Journals for the Conference indicated in the record and for the dates cited.

3. PASTORAL TENURE IN THE METHODIST EPISCOPAL CHURCH. The numerous Appointments of the ministers of the Pittsburgh and Erie Conferences during the nineteenth century are accounted for by the limitation on ministerial tenure in one appointment that prevailed in the Methodist Episcopal Church. Until 1864 the allowable period in an appointment was two years. This was increased to three years from 1864 to 1888 and to five years from 1888 to 1900 when the limitation was removed.

4. METHODIST EPISCOPAL ERIE CONFERENCE MINISTERIAL RECORDS. The Erie Conference Ministerial Records have been published eight times in 1866, 1870, 1898, 1911, 1927, 1936, 1957 and 1961, the record being updated with each publication. For this publication all former Erie Conference records have been updated to 1968 and the entire list has been re-typed with the dating made consecutive, and life spans and given names added where they were obtainable from the memoirs.

In the case of transfers of ministers to or from Erie Conference in many cases the Appointments in the other Conferences are given. The Secretaries of the Conference who compiled the lists derived this information from a file of The General Minutes.

5. METHODIST EPISCOPAL PITTSBURGH CONFERENCE AND METHODIST MINISTERIAL RECORDS. This is the first publication of the total roll of the Pittsburgh Conference. Reynolds’s Manual of the Pittsburgh Conference contains the appointment record of the ministers living in 1889 and 1927. It also contains the Classes of ministers admitted to the Conference year by year from 1825 to 1927 and a listing of the appointments made by the Conference for the entire period 1825 to 1927. It was an indispensable resource in compiling these records.

The records of the charter Members of the original Conference of 1825 are traced back to the beginning of their ministry using the records of The General Minutes.

In most instances the Appointments of ministers who transferred into or out of the Pittsburgh Conference are only given while they were in the Pittsburgh Conference. Conference Relations are given for other Conferences as far as they were available.

6. METHODIST EPISCOPAL CONFERENCE RELATIONS. The Pittsburgh and Erie Methodism Episcopal Conferences had two levels of Conference Membership and two levels of ordination. In the earlier years a candidate for the ministry would be admitted on trial, assigned to the first year in the Course of Study, and placed in an appointment. At the satisfactory completion of the first two years of the four-year Course of Study, with satisfactory reports on their ministry by the Presiding Elder, clergy would be admitted into full connection in the Conference and be ordained Deacon. At the completion of the full Course of Study clergy would be ordained Elder. This procedure was modified in the twentieth century as increasingly higher levels of academic training were required.

The names following the dates of ordinations in these records are the names of the Bishops who ordained the candidates.
7. TERMINATION OF CONFERENCE MEMBERSHIP. Once someone was admitted on trial in any Methodist Annual Conference, the Conference was responsible for their employment in the annual appointments. Clergy could be discontinued from being “on trial”. When clergy attained "full membership" status, their Conference Relation could be terminated in any of the following ways:

A. **By Transfer** to another annual conference (and later to another denomination).
B. **By Voluntary Location.** This meant the surrender of conference Membership at their own request.
C. **By Involuntary Location.** This meant dismissal from the ministry by Conference action.
D. **By Withdrawal.** This meant surrendering the Methodist ministry, sometimes to enter another denomination, usually to its ministry (but later meant giving up their entire ministry).
E. **By Expulsion.** This was Conference action stripping someone of their ministerial credentials and their membership in the Methodist Church.
F. **By Death.**

8. THE METHODIST PROTESTANT RECORDS. This was a difficult list to compile. The Conference never published anything on ministerial records. The name "Methodist Protestant" in the Conference Relations section of the record identifies these persons. A special research group, headed by Norman Carlisle Young compiled these records by a careful reading of the *Journals* and appointment lists from 1828 to 1939.

All men are listed as "ministers" who served one or more appointments in the Methodist Protestant Conference whether they achieved membership in the conference or not.

9. USE OF THE TERMS "SUPERNUMERARY" AND "SUPERANNUATED."
A. Someone could be granted the *supernumerary* relationship, and be left without appointment for impaired health or other legitimate reasons without surrendering their ministry in the conference for a period of several years. When someone took this relation it is entered in the list of their appointments in these records.
B. "Superannuated" = "Retired". This is a relationship granted by the Conference in which the Conference is released from the requirement to give the clergy an appointment. In these records it is entered only in the Conference Relations, UNLESS someone took one or more appointments after retirement, in which case it is entered in the proper place in the record of appointments.

10. THE SUPPLY MINISTRY. Since the Conference is not under mandate to account for the appointment of Supply Ministers, the Conference Records on these useful servants of the Church are incomplete. There were few Supply Pastors in the Methodist ministry during the nineteenth century when the Course of Study route into conference membership was open. With the rising ministerial education requirements of the twentieth century, the number of Supply Pastors in Pittsburgh and Erie Conferences increased greatly.

The only Supply Pastors included in these records are the following groups:
A. All that were on the conference roll of appointments in 1968.
C. The Methodist Protestant ministers who never achieved conference membership.
D. The Supply years of those who went on to become Conference Members are accounted for.

**Editorial Notes:**
In this edition we have added the Supply Pastors and their Appointments, which were omitted from the 1968 edition. We have added Clergy in former Evangelical, Evangelical Association, United Evangelical, United Brethren and Evangelical United Brethren in Christ denominations, prior to Merger in 1969. All Clergy still alive in 1969 are included in the Western Pennsylvania Conference of The United Methodist Church. There is also available on the conference website Statistical Data regarding Senior Pastors serving the Annual Conference since 1974.
